

## MG Posters for Sale – Great for Christmas Gifts

Jim Danielson of Nebraska has taken on a project for fun: photographing MGs and Healeys and turning these photos into posters which he is offering for sale at just over cost. The price for each poster is \$35 which includes the postage.

All of the posters are 16"x20", printed on high-quality photo paper and mailed in a paper tube. By the holiday season there will be five posters available: (1) MGBs, (2) MGAs, (3) Bugeye Sprites, (4) Big Healeys and (5) MGB license plates. There are a number of other pictures in process which will become available in the next couple of years. This has been a three-year project.

The number of cars varies from around 130 on the MGBs to just over 100 on the Bugeyes. There are 33 license plates in those pictures. With the exception of the MGB picture (intentionally duplicates two cars) he has tried to be very careful not to duplicate cars. There is also an MGC in the MGB picture. Avoiding duplications requires careful work and sometimes it gets down to the tire tread to make distinctions.

Jim's reason for starting this project is "because some of my non-car friends kept saying that all MGBs looked alike. The finished picture took care of that statement. Another reason is that I was involved in pictures both still and video in the thirty-plus years as a television producer. And it feels good to make something that others appreciate. The pictures have won several awards in car show photo contests including second place in the Breckenridge show."

"I have sold about twenty pictures. Most of them intended for the garage or the den. One man in New York got two, one for home and one for his business. Interesting that the businesses name was Morris Garage. Several have been purchased for gifts. It is something for the car lover that has everything ... almost."

I have rarely done T-shirts for someone. Since they are done one at a time, they are expensive (by my standard). By the time I include postage they cost \$25.
